

US Army Aviation & Missile Command
Michael McGee
Director, NATO Medium Extended Air Defense
System (MEADS) Management Agency (NAMEADSMA)
Redstone Arsenal, Alabama

Mr. Michael McGee, 44, is currently serving as Director of the NATO Medium Extended Air Defense System (MEADS) Management Agency (NAMEADSMA). Before that, he served as the Director, Short Range Missile Directorate with responsibility for Short Range Air Defense Systems (SHORAD), Air and Missile Defense Command & Control Systems, Lasers, Unmanned Ground Vehicles (UGV), TOW 2 Subsystem/Night Sights, and Test Measurement & Diagnostic Equipment (TMDE).

All of his 22-year government career has been spent within the IMMC with 14 years of service in a project management office and the remaining 8 years in weapon system support roles.

For his 14 years of project management experience (1989-2003), Mr. McGee has served as the Chief of the Logistics Management Division in four different program offices: the Aviation Rockets and Missiles Project Office (formerly HELLFIRE Project Office), the Ground-based Midcourse Defense (GMD) Joint Program Office, the Follow-on to Lance (FOTL) Project Office, and a Special Access Program during Operation Desert Storm. Additionally, he served for two years as the Chief Logistics Officer (G-4) to the Program Executive Officer (PEO) for Tactical Missiles (1997-1999).

During his eight years of weapon system support within the IMMC (1982-1989), Mr. McGee served as a supervisor, maintainability engineer, and depot maintenance manager on the PERSHING II, PERSHING 1A, and Multiple Launch Rocket Systems (MLRS) weapon systems.

Mr. McGee has a Master's Degree in Program Management from the US Naval Post Graduate School, Monterrey, California (2000) and a Bachelor's Degree in Commerce and Business Administration from the University of Alabama, Tuscaloosa, AL (1981).

He is a graduate of the Logistics and Acquisition Management Program (LOGAMP), the Advanced Program Manager's Course, and the Personnel Management for Executives (PME) courses. He is a member of the Army Acquisition Corps (1995) and is Level III Certified in Acquisition Logistics (1995) and Program Management (2000).

While serving as the G-4 on the PEO Tactical Missiles staff, Mr. McGee was awarded the Superior Civilian Service Award (1999) for Chairmanship of the "Team Redstone" Total Life-Cycle Management (TLCM) Integrated Product Team (IPT) involving 3 PEOs and AMCOM.
